REFER A PARENT OR CARER

Foundation Enterprise Skills

8-session programme fully funded through RISE (Raising Income through Skills and Education)

Starting November 2026 - 3 hours per week

Dundee | Delivered in partnership with Dundee & Angus College

About the Programme

Foundation Enterprise Skills is a programme designed for parents and carers who face barriers to employment, learning or progression. Through practical activities, participants build confidence, develop enterprise and employability skills, and support mindset shift all in a collaborative environment.

WHO SHOULD BE REFERRED?

- Parents and carers with a child under 18 at home and earning less than £33,000
- Individuals looking to enter employment
- Those wanting to remain in work or increase their income
- People lacking confidence in learning or work environments
- Individuals experiencing barriers to participation
- Those interested in developing practical enterprise and employment skills
- Individuals who would benefit from a supportive group learning experience

WHAT PARTICIPANTS SHALL GAIN

- Increased confidence and self-belief
- Enterprise and employability skills
- Communication and problem-solving skills
- Experience developing and testing ideas
- Inspiration from guest speakers and role models
- A pathway into further learning, employment or enterprise programmes

WHAT MAKES THIS DIFFERENT?

Participants work through simple steps designed to help them generate ideas and think differently. It takes place in a welcoming open environment with ongoing friendly support offered throughout.

We will provide access to inspiring role models, facilitate peer learning and networking, raise awareness of further learning, employment and enterprise programmes and spark ideas of what can be done to support communities.

SUPPORT PROVIDED

Food and refreshements provided throughout the programme.

Childcare Support provided.

Ongoing Support Friendly guidance and support from start to finish.

WHY REFER?

Foundation Enterprise Skills has successfully engaged individuals who are furthest from employment, including those from families experiencing long-term unemployment. For many participants, this process provides the confidence, support and practical experience needed to take the first step towards employment, further learning or income generation.
