Nature Recovery

The Friary | 26 March 10am-12:30pm | Lunch provided

Join us for engaging discussions, a guided walk, and hands-on activities that reveal what Nature Recovery is all about

Nature Recovery offers the skills, knowledge, and opportunities to support nature in Dundee —so nature can return the favour.

We want to integrate nature into every recovery journey, whether through hands-on conservation, creative expression, or mindful connections.

This workshop is a chance to learn more about our project, share your thoughts on its potential impact, and experience our approach firsthand.
